

STREAMPULSE

Global OTT Content & Viewership Insights

A data analytics exploration into the world of streaming giants, uncovering the patterns behind global hits and audience behavior.

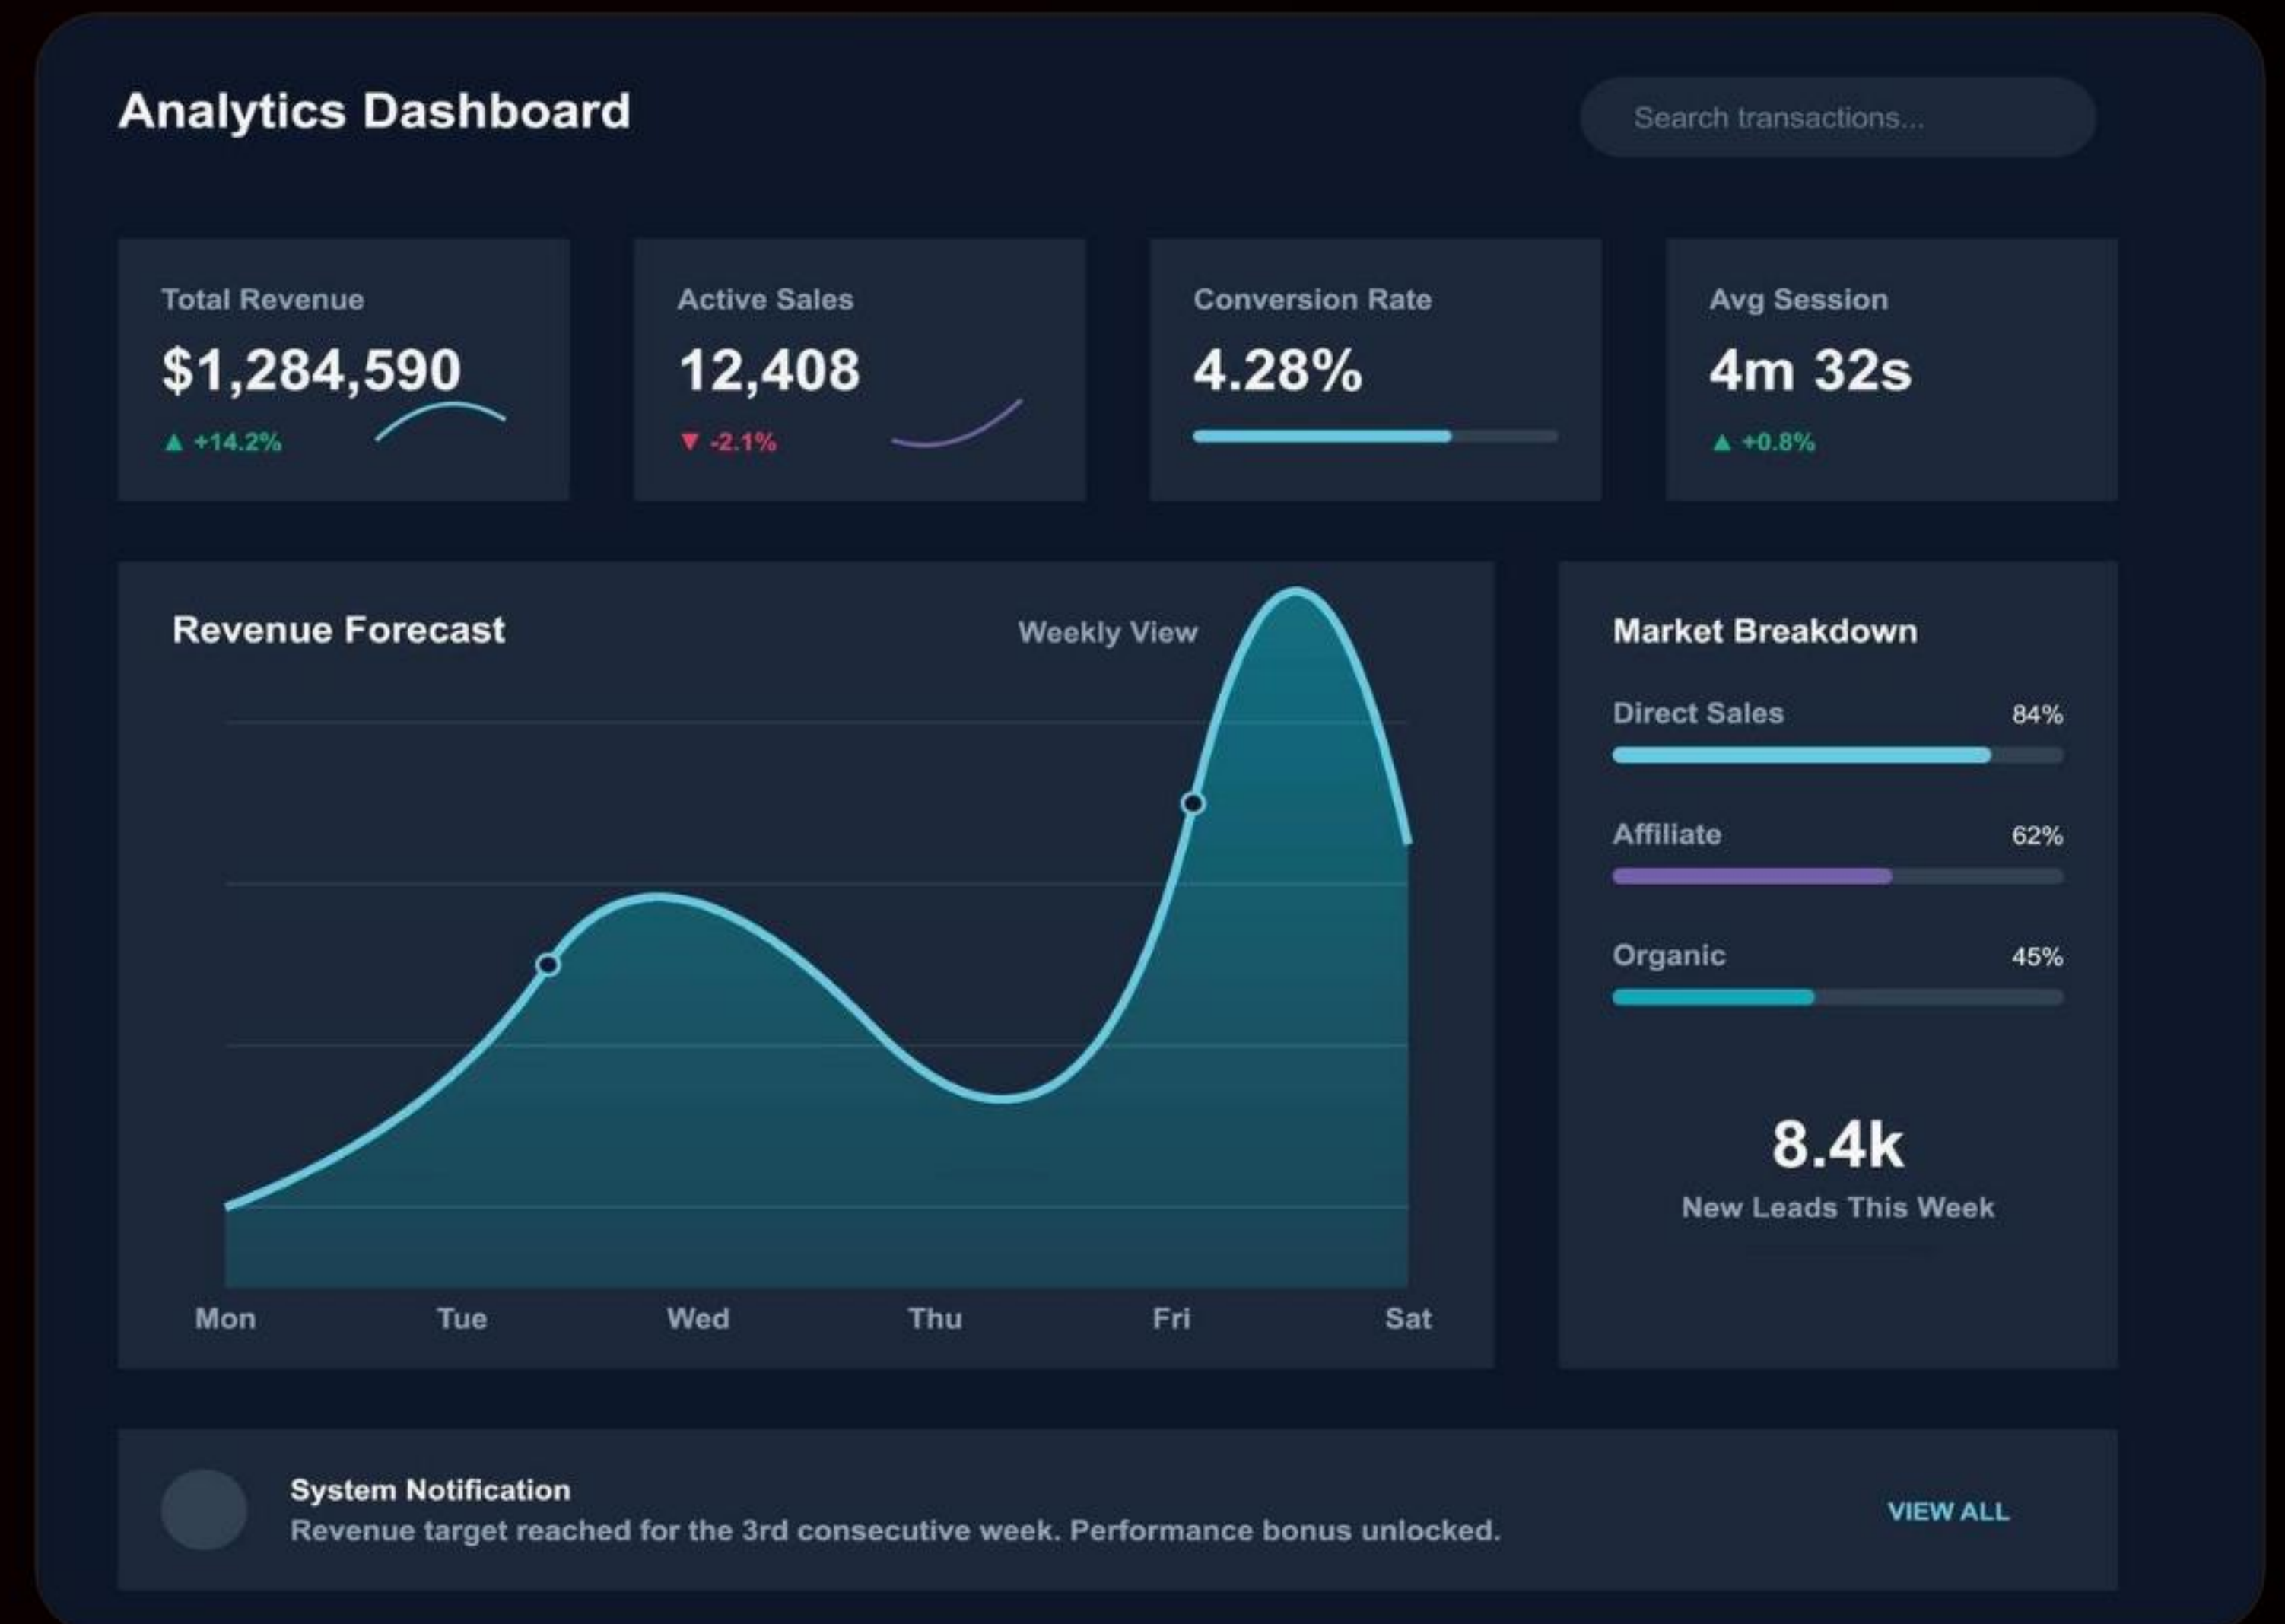

Project Vision

Analyzing the DNA of Digital Entertainment

The "Data" Behind the Drama

Why OTT Analytics?

Streaming platforms invest billions in content. Data tells them what to produce, who will watch it, and how to keep users subscribed in a highly competitive market.

Modern Tech Stack

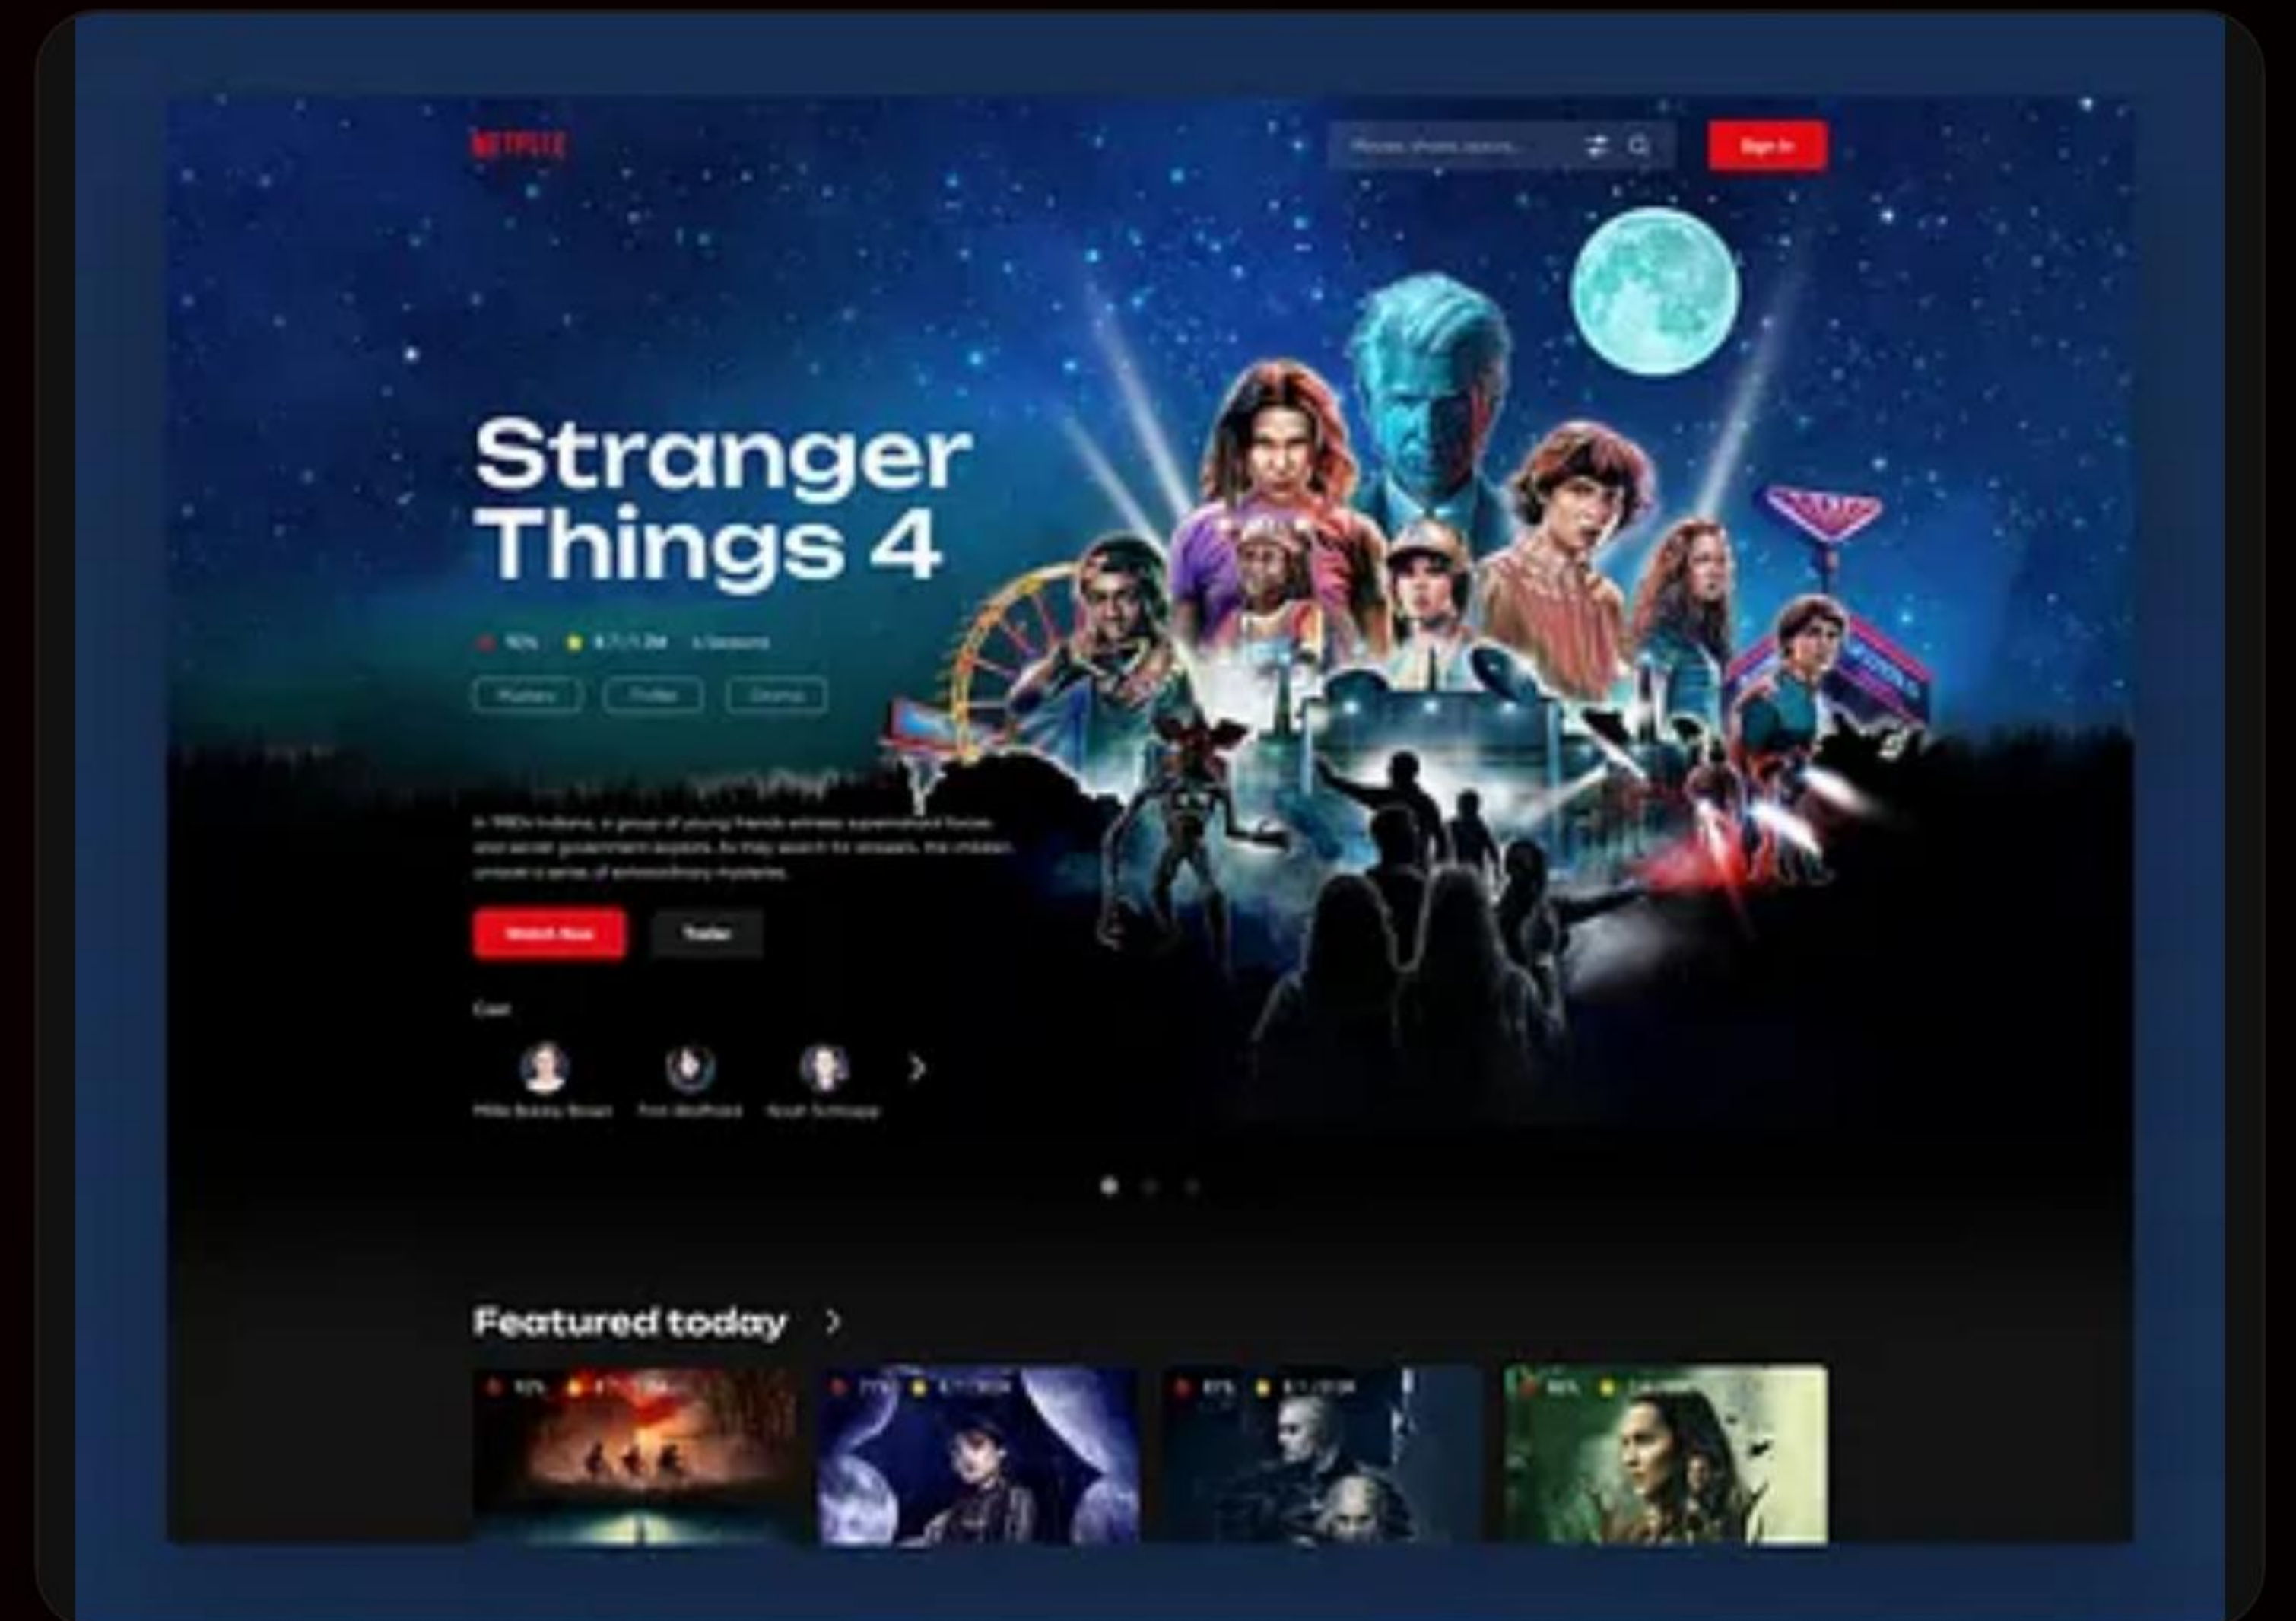

From Raw Data to Insights

We leverage **Tableau Public** for high-fidelity visualization and **Python/SQL** for data cleaning. Our primary source is the comprehensive **Netflix Kaggle Dataset** containing 10k+ rows of metadata.

The Cinematic UI Blueprint

-  **Dark Theme:** Reduced eye strain and premium cinematic feel.
-  **Dynamic Filters:** Real-time filtering by Genre, Rating, and Year.
-  **Heat Maps:** Visualizing global density of content production.

Core Performance Metrics

Content Split

Breakdown of *Movies* vs. *TV Shows* in the current catalog.

Avg. Rating

Sentiment analysis based on IMDB and Rotten Tomatoes scores.

Genre Share

Identifying the dominant genres driving user engagement.

| Global Reach

Production Hubs

Our analysis maps the top content-producing nations. While the USA leads, International content (K-Dramas, Bollywood, Spanish series) is seeing an unprecedented 300% growth in consumption.

| The Dataset Scale

10K+

Entries Processed

A massive collection of data points covering Release Year, Director, Cast, and Country, allowing for deep-dive exploratory data analysis (EDA).

| Strategic Insights

The Rise of TV Shows: A significant shift from standalone movies to binge-worthy episodic content.

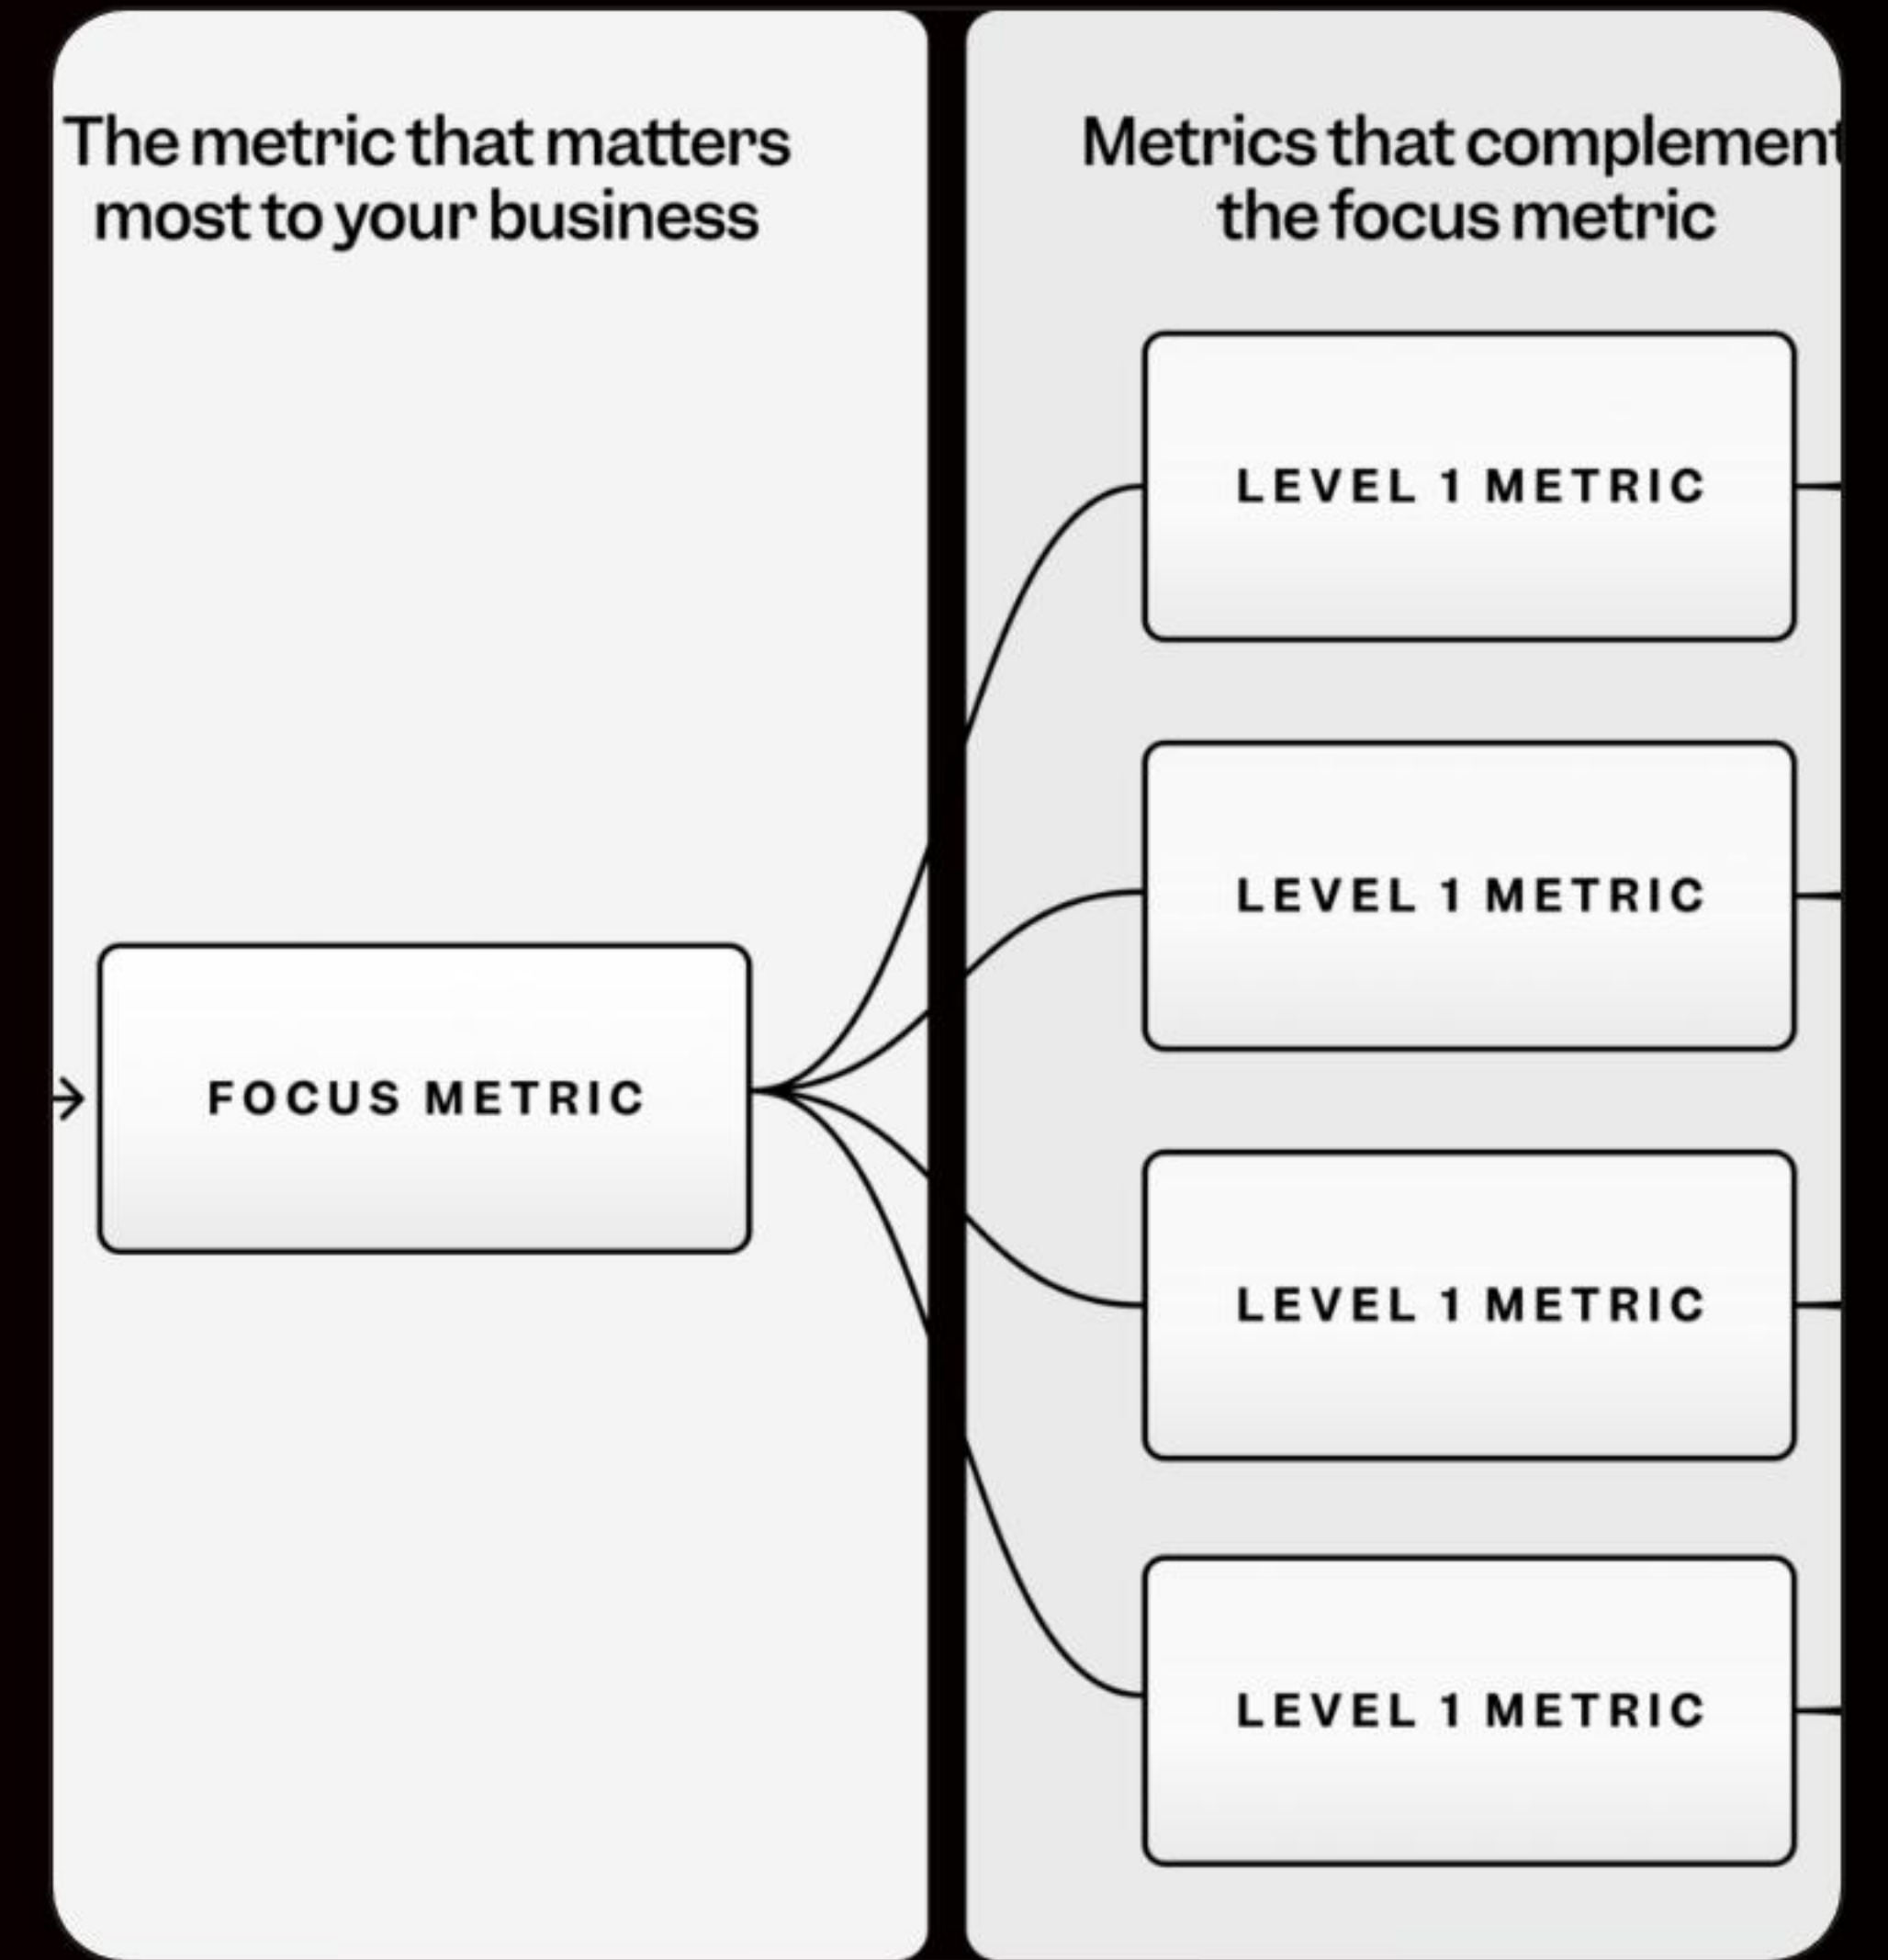

Localization Matters: Non-English content now accounts for over 45% of total watch time on top platforms.

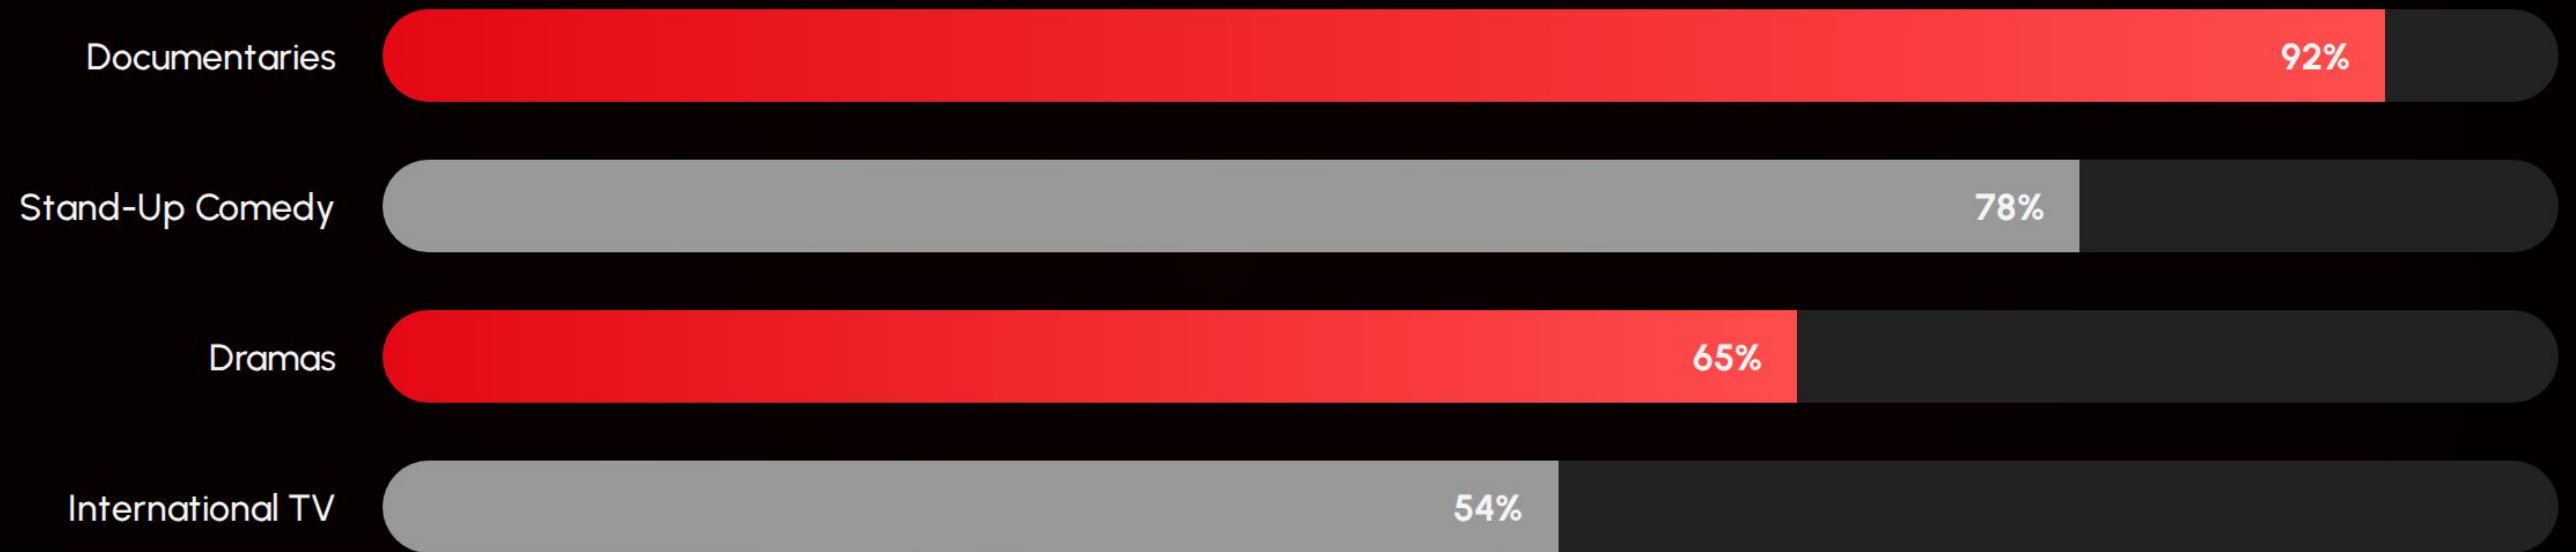

Release Windows: Data suggests Friday releases yield 25% higher weekend engagement.

Content Archetypes

Categorizing content by 'Mood' and 'Target Demographic' using advanced clustering techniques.

| Top Genres by Volume

Note: Documentaries show the highest percentage growth in content production over the last 3 years.

Any Questions?

Let's discuss the intersection of Art & Analytics.
